**Prayer for our nation, President, Vice President and for CDC, First Responders, Health Care Workers**

Father you are excellent in every way. We love and adore you!! We lift up President, Vice President, the CDC, first responders and health Care Workers, etc. We pray that you give them divine wisdom. We pray they are led by the Spirit of God whether they know it or not. We pray that you give them revelation knowledge on how to stop the virus quickly and safely. We pray Father you put together teams in each state that are led by you. I decree an unusual flow of divine wisdom released by the Holy Spirit!!

I speak protection over each person involved in the following areas - Doctors, Nurses, First Responders, Police, Hospital employees, Fire Fighters, etc. I speak protection over their families. Give them renewed strength, energy. Give them great peace and endurance to finish this race. In Jesus name!
